2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE AND TABLE OF CONTENTS.**

4 (a) SHORT TITLE.—This Act may be cited as the
5 “Fostering Innovation in Global Development Assistance
6 Act” or the “FIGDA Act”.

7 (b) TABLE OF CONTENTS.—The table of contents for
8 this Act is as follows:

Sec. 1. Short title and table of contents.

Sec. 2. Findings.

Sec. 3. Sense of Congress.

Sec. 4. Chief Innovation Officer.
Sec. 5. Authorities to support expanded use of innovation.
Sec. 6. Proven Solutions program.
Sec. 7. Increase in fixed amount subawards.

Sec. 12. Definitions.

1 SEC. 2. FINDINGS.

2 Congress finds the following:

3 (1) The effectiveness of United States foreign
4 assistance can be greatly enhanced by fostering in-
5 novation, applying research and technology, and
6 leveraging the expertise and resources of the private
7 sector to find cost-effective solutions to today's most
8 pressing development challenges.

9 (2) Partnerships with entrepreneurs, experts,
10 nongovernmental organizations, universities, and
11 science and research institutions allow the United
12 States to find solutions to specific development chal-
13 lenges in a faster, more cost-efficient, and more fi-
14 nancially sustainable way.

15 (3) Enhancing the authorities that support re-
16 sults-based and pay-for-success innovation models
17 will better enable USAID to diversify and expand
18 both the number and sources of ideas that may be
19 developed, tested, and brought to scale, thereby in-
20 creasing the USAID's opportunity to apply high

1 value, cost-effective solutions to global development
2 challenges.

3 (4) As demonstrated by USAID's Development
4 Innovation Ventures program, innovation within
5 United States foreign assistance can generate high
6 social returns when it is centered on the creation of
7 and reliance on rigorous evidence of impact on glob-
8 al development outcomes, a focus on cost-effective-
9 ness, and attention to financially sustainable scaling
10 pathways.

11 (5) Enabling uptake of evidence-based innova-
12 tion across USAID's operating units will enable
13 USAID to scale breakthrough solutions that accel-
14 erate economic growth and produce better develop-
15 ment outcomes, which can help support the growth
16 of healthier, more stable societies and foster trade
17 relationships that translate into jobs and economic
18 growth in the United States.

19 **SEC. 3. SENSE OF CONGRESS.**

20 It is the sense of Congress that innovation is central
21 to identifying solutions to global development challenges.
